KENDAŞ TEKNOLOJİ A.Ş.

Information Security Policy

At KENDAŞ TEKNOLOJİ A.Ş., we regard information security as our highest corporate priority in all of our activities, including enterprise system integration, fibre optic and active/passive network infrastructure installation, data centre solutions, enterprise hardware supply and maintenance, software development, digital twin and health informatics integrations, as well as e-archiving and technical support services.

Protecting the confidentiality, integrity and availability of all information assets belonging to public institutions, healthcare organisations, our corporate customers, business partners and employees is our fundamental management principle.

Accordingly, as the Top Management of KENDAŞ TEKNOLOJİ A.Ş., we commit to:

- **Compliance with Standards and Continual Improvement:** establishing, operating, regularly reviewing and continually improving the performance of our Information Security Management System (ISMS) in accordance with the requirements of ISO/IEC 27001:2022;
- **Legal and Contractual Obligations:** fully complying with the Turkish Personal Data Protection Law No. 6698 (KVKK), Law No. 5651, the Information and Communication Security Guide of the Presidency of the Republic of Türkiye Digital Transformation Office, and all confidentiality and security requirements arising from public and private sector contracts;
- **Risk Management:** systematically analysing threats and vulnerabilities to our corporate information assets and customer projects, reducing risks to acceptable levels and implementing the necessary technological and administrative controls;
- **Customer and On-Site Security:** protecting the confidentiality of customer data to the highest degree during software development, system installation and technical support activities carried out at public institutions and corporate customer sites;
- **Human Resources and Awareness:** defining the information security responsibilities of our employees, field teams and business partners, and developing a corporate security culture through regular training and awareness activities;
- **Business Continuity:** effectively operating business continuity and backup mechanisms to ensure the uninterrupted continuity of our critical business processes.

Mehmet Fatih ALPARSLAN
Chairman of the Board / General Manager
KENDAŞ TEKNOLOJİ A.Ş.
